“Educate Yourself Uplift Your Life”

Maharlika Academy and Podium Medical Training Institute founder and CEO passed away unexpectedly...
Tawam Hospital – Tuesday , June 29, 2021, **Mr. Gaylord Abad *founder and CEO*** of Maharlika Academy and Podium Medical Training Institute passed away in Tawam Hospital due to cardiac arrest in his young age.
Mr. Gaylord Abad led both companies successfully for 2 years Maharlika Academy and later with Podium Medical Medical Training Institute in June 7, 2021

Mr. Gaylord Abad built a seasoned and effective management team that we will continue to carry them forward.by God's grace. Under his family leadership the mission and legacy will continue with the help of his dedicated staff.

Mr. Gaylord's dream was to positively transform the lives of millions of people around the globe through this academy or institute that will empower them to reach their goals in life.

Mr. Gaylord enjoyed spending time with his family, staying active, and most especially with his nephew and niece , eating in good restaurants , staying in hotels and going to mass in Sundays.

What drove him so successfully from one position to the next?

The same trait we see in all successful executives. "PASSION".

He was an inspiration for everyone extending his help, support and love to all.

Rest well in our Lords loving arms with our dear father Avelino. You've done your best and accomplished your purpose and mission in this world. You will always stay loved and remembered everyday in our hearts.

Our Story:

Maharlika Academy is created by a community of educators who are dedicated and passionate in delivering foremost academy to Filipino learners. It was established in Al Ain, and later it was also successfully built its sister company named **Podium Medical Training Institute** in Abu Dhabi. Our organization caters to enthusiastic individuals whose main objective is the betterment of their professional and even personal career. We believe in the potential of all Filipinos with this, Maharlika Academy and Podium Medical Training Institute renders the necessary tools to attain every minute aspiration of every Filipino.

Teaching and learning academy which open officially last June 2019 was Maharlika Academy. Later, Podium Medical Training Institute was established in June 2021 with the late Mr. Gaylord Abad by his dedication and leadership skills. The facility will house a classroom, technology, equipment, certificate accreditation and qualified Instructors to support teaching and learning of our Podiumians and Maharlikan students.

Over the years, Maharlika Academy have embraced diversity by opening its services to all regardless of race, nationality and identity living on its motto, " Together we Learn, Together we Uplift Lives".

Our Mission

Maharlika Academy develops global learners to perceive and to lead to a successful career. We safeguard our student's progress, both the skills that a sound education provides and the competence necessary to get through this exacting world. In addition, Maharlika Academy empowers Filipinos and Global Learners to realize and to achieve their dreams.

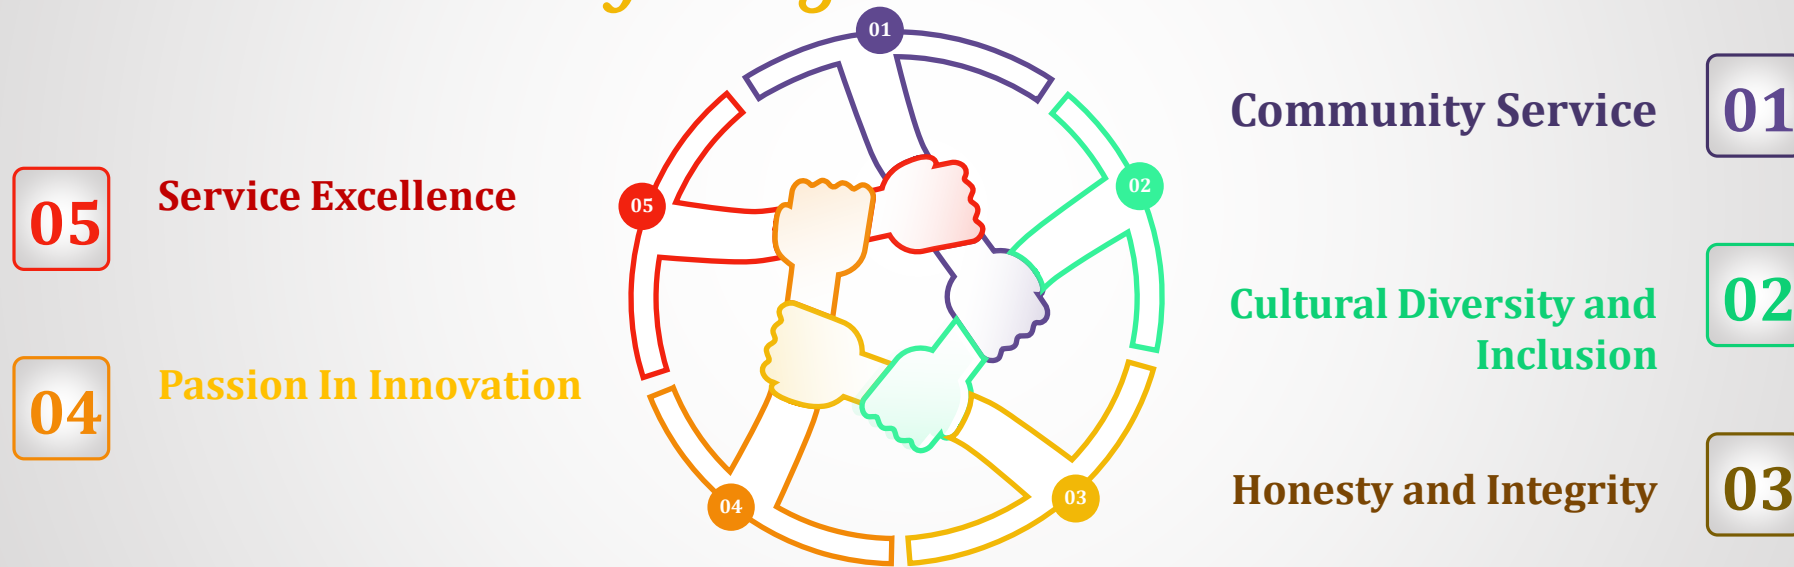

Our Visions

We, the Maharlika Academy, will be consistent with the quality of services we offer to our clients. We will make it a point to continuously evolve and improve our institution's system on a par with the changing world. Moreover, our institution will particularly give importance to the reason that we exist, our clients - the Filipino and Global learners.

Podium Medical Training Institute & Maharlika Academy

Guiding Core Values

Services Offered:

Maharlika Academy is going to offer variety of courses for overseas Filipino workers and their families including Global Learners in United Arab Emirates and around the globe. Our mission of starting this partnership is to help our learners to uplift their skills and knowledge. To develop their capacity and be more productive in their chosen career. Our team will do our best to ensure that Maharlika Academy will help to achieve their dream.

In addition, Our Home school program also aims to help Filipino OFW who have their children in the UAE be educated at the comfort of their home without sending them to the Philippines.

Student Success Story

MAHARLIKA ACADEMY

Maharlikan Success Story

Christian G. Maano is a 23 year old lad hails from Pagadian City, Zamboanga Del Sur. He arrived in the UAE almost 3 years ago to work as a storekeeper. His decision to go back to school is to gain new skills, expand his career option, to earn more money and see the world in the future.

In choosing Maharlika Academy, He believes MA provides better opportunities for a quality higher education in the field of health to the people on Al Ain, Abu Dhabi Region, regardless of religious belief and cultural affiliation. Moreover, He envisioned that the programs will help inculcate in him the values of health and sanitation, prevent illness and alleviate suffering of the informed and the handicapped.

From a Storekeeper to a Professional Caregiver, Christian is now working in one of the renowned Healthcare Facility in Al Ain and because of his current qualification it changes his life, as opportunities are opening and his economic ability is improving.

His Advice to Filipino OFW,

"If you've been considering returning to school and earning a certificate, there is no better time than now."

Maharlika Academy

Maharlikan Success Story

"After completing Maharlika Academy, all years of agonizing a proud member of persons in town of the North Island is a better person because I have worked in the UAE for 8 years."

I decided to go back to school because one of the most basic ways to improve one's life is to gain more knowledge and acquire more specialized skills to widen my spectrum of job options. It is also a personal investment that allows me to achieve my goals, whatever they may be.

As the Outcome of Maharlika Academy: "Educate yourself, upon your life", I have the faith that it can change my life through the help of competitive instructors. Exposing myself to new topics and experiences will simultaneously enhance my self-esteem and gives me a greater access to occupations and job opportunities.

From a Clinic Storekeeper, I am currently working as a Medical Receptionist in one of the Health Care Facilities in Al Ain and because of the specific skills and knowledge that I learned in Maharlika Academy it helps me to familiarize the latest advances within the field.

My advice to the OFW's

YOU ARE NEVER TOO OLD TO SET ANOTHER GOAL OR TO DREAM A NEW DREAM

Maharlika Academy

Maharlikan Success Story

From a School Support Staff to a Professional Caregiver, I am Joann A. Lubrica, a proud daughter of Science City of Muñoz, Nueva Ecija. I have worked in the UAE for 6 years.

My decision to go back to school is, because I can see that I can never reach my dream if I continue to work as a support staff. In fairness to my previous work, AJ Nursery was so good to me. I owed my growth professionally with my fellow staffs who gave me a lot of memorable experiences in life. However, my heart is longing to achieve my life's goal and what made it hard to achieve was, I could hardly send help to my family nor support their needs. It was then when I decided to take up a new course. Thanks God that I have a very supportive sister who volunteered to pay for my 1st fees and the rest were blessings. Working and studying at the same time was not that easy and as the saying goes, "If there's a will, there's a way." I decided firmly to walk the road towards reaching my purpose. I am not getting any regrets anymore, so I told to myself, "It's now or never."

Maharlika Academy had inspired me again. I started to pick-up the shattered pieces of my life and moved on. I decided to become the person I dreamed to be a Health worker, and look I did it! MA fees are also within my reach, affordable and reasonable so to speak. The staffs and students, mostly are kabayans. In short, I found my "second home away from home" in the walls of MA. To summarize it all, let's just say, kapamilya ka.

My Advice to my fellow OFW, choose to achieve forward from your present situation.

"Success is not an accident. It is hard work, perseverance, non-stop learning, sacrifice and most of all learning to do and loving what you are doing. Always remember that life without struggle is a life without success. Don't give up and never quit. Rest assured, we have a big God who will guide us in our journey till we reach our Stars our dream come true." Thank you MA, To God be all the glory!

Maharlikan Success Story

Congratulations to our new Certified Professional Coder!

Ms. Jamaica Lyn Rayo
Batch 4

Maharlika Academy

Student Success Story, Part 1 (Cancer Survivor, Dreamer)

About me...

I am **Grace B. Agresor**, 45 years old, from Tuguegarao City, Cagayan. I'm currently a Manager and Beautician in Marasee Beauty Parlor, a freelancer doing home services in the field of beauty and also now a Massage Therapist for 3 years here in the UAE.

This is My Story...

I was born with a lot of different sickness like heart failure, Myoma, and twice diagnosed with Cancer of the blood or Leukemia. I survived my first diagnosis but eventually, after 12 years I had a relapse, my cancer came back. Fortunately, I was already working abroad and found a very good employers who supported me from my medication, chemotherapy, radiation therapy and even bone marrow transplant. I never took my vacation for almost 7 years due to my medical condition. But, I'm still lucky because I survived. I can say that I'm a cancer survivor. As of press time though, my left part of my head is always on pain, I undergone CT scan and the result is a tumor in the left part of my brain with size of 2cm x 5cm. The doctors wants me to undergo operation but I refused. So far, once or twice in a week I feel pain usually when I think more, got stress from heat or too much cold.

Maharlika Academy

Student Success Story, Part 2 (Cancer Survivor, Dreamer)

My Maharlika Academy Journey...

I enrolled with Maharlika academy with the intention to take up cosmetology because I want to enhance my skills as a make-up artist, eventually, with warm encouragement by Ms. Ceejay, I ended up shifting to Massage Therapy and Reflexology and it's the best decision I've made both professionally and personally speaking. One time I can't breathe due to stomach pain and being bloated. I grab my massage stick and start doing pressure point to my feet, the pain disappears and even up-to-date I'm still applying all what I've learned to ease the pain and relax myself. Professionally, I have also increased my income weekly which even start while studying the course.

My Advice to the Filipino OFW...

Our consistency of doing things will help us to reach our destination and get our dreams, our dreams of financial freedom and Good health. To our friends out there, remember that despite challenges in life and even in the adversity of sickness it should not stop us, continue learning to reached your dreams and if you want to have additional achievement in your life, come and join Maharlika Academy where "knowledge guarantee without limit"

MAHARLIKA ACADEMY

Faculty Testimonials

Maharlika Academy

Certified Maharlikan Educator

Our Medical Coding Course Instructor, Mr. Russell G. Alaysa is a proud son of Paoay, Ilocos Norte. He is married to Mrs. Janica C. Alaysa of whom was blessed with 2 Children. He arrived in the UAE in 2016 to work as a medical coder until present times.

He believed that while others have a passion for cars, travelling or eating; He have always wanted to teach, it is something that he enjoy doing. It amplifies in him the feeling of accomplishment when you are making a difference and give the motivation to continue uplifting the lives of fellow kabayans.

He choose Maharlika academy as a platform to share his passion for teaching because of its roster of high caliber professional instructors, its capability to provide high quality standards in education, few reasons of which his really proud to be affiliated with.

In defining his course, Medical Coding is a highly in demand profession in the healthcare industry. His approach to learning the course is mainly to prepare the student pass the certification exam. Basic foundation of Anatomy, Physiology and Medical Terminology will also be discussed. Suitable for medical and non- medical aspirants. All the technical and analytical skills necessary to work as a medical coder in a healthcare facility

His final Advice to the Filipino OFW is to make plans not only for your family back home but plans for yourself when you get home. The opportunity that we have is temporary and will last only for a while so make the most of it. Invest in yourself. Maharlika academy gives you that opportunity to uplift your life through affordable certification courses that are applicable here, back home and abroad.

Maharlika Academy

Certified Maharlikan Educator

About me...

I'm Carin P. Juezan, proud single mother of Queenie Angel Corrinie J. Perez and hails from the beautiful Queen City of the South-Cebu. I am currently working as a Front officer and a Faculty for Reflexology & Massage Therapy / Reception & Office Management in the UAE for almost 5 years.

This is My Story...

Volunteering through teaching is my passion, because it helps people uplift there life, even in challenging times. From a young age, I have been very active in different organizations and charities in the Philippines. I do Feeding Program to children's in different Barangay's and travelled far to teach in remote areas where communities don't have access to education due to poverty and far distance. I have encountered cases of "NO READ NO WRITE" both children and adults of which I assisted them to enroll to ALS Program (ALTERNATIVE LEARNING SYSTEM).

My heart desire is to help and make people happy. I believed that, in sharing our knowledge and skills it can have a big impact to someone's life. This is my way to contribute to our society and hoping to encourage others to be an active Volunteer as well. In 2009, I have received from Republic of the Philippines office of the President, Certificate of Recognition and Elected as Most Outstanding Volunteer in the Philippines.

Maharlika Academy

Maharlikan Certified Educator

My Maharlika Academy Journey...

Maharlika Academy, I strongly believe have the Vision and Mission to help uplift the life of many people who are in need, and knowing personally, the Pillars of the institution have strong and concrete sense of leadership, a heart and ears to listen to all as one. So, I encourage all student to enroll in Reflexology & Massage Therapy and Reception Office Management.

Reflexology & Massage Therapy is an extremely effective form alternative medication use as preventive healthcare. It reduce stress, tension, improve circulation and cleanse body toxins and impurities will balance the whole body system. Such can be applicable to your clients, your family or to yourself as well.

My Advice to Filipino OFW...

My advice to my co OFW is, remember to prioritize your health. As they say, "HEALTH IS WEALTH". Save for the future. Be equipped with new skills, study and change for a better career more comfortable job than what we have at present. My father once told me as a child that you must be prepare for future, educate yourself, keep on learning to survive whatever environment you may have in the future.

"AMBITION WITHOUT KNOWLEDGE IS LIKE A BOAT ON DRYLAND. TAKE A STEP FORWARD, BELIEVE IN YOURSELF, & HAVE FAITH THAT ALL THINGS IS POSSIBLE."
